

# PHOTOELECTRIC SMOKE DETECTOR

Innovation. Passion. Commitment.

Photoelectric Smoke Detectors optically sense smoke generated from fire.

**Model No: SEC PSD**

## Key Features:

- » Low current draw.
- » Wide operating voltage 8 to 30VDC.
- » Bi-colour LED detector status indicator.
- » Automatic drift compensation.
- » Addressable feature.
- » Range of detector bases available.

## Applications:

Homes | Retails | Banks & ATMs | Offices | School | Warehouse | Hospitals | Industries
