SEC SAGLD

STAND ALONE GAS LEAK DETECTOR

FEATURES

- Micro- controller based
- DC 12V / 220V operated
- Low consumption
- High reliability sensor
- Indication of automatic fault checking
- Buzzer indication for alarm
- Potential free contact for Alarm Out
- Automatic restore after gas discharge
- Manual test button
- Automatic reset function
- Simple wall mounting design
- Green Led indication for power supply
- Red Led indication for Alarm
- Yellow Led indication for faulty
- Red and Yellow Led flashing alternately for warm-up

TECHNICAL SPECIFICATIONS

Operating voltage: DC 12V / 220V
Stand by current: <100mA
Alarm current: <160mA
Power consumption: <3W
Operating Temperature: -10 °C -50 °C
Relative humidity: 10% -95%
Buzzer: >70dB 1 meter
Warm up time: 180 sec
Dimension: 73 X125X38mm
