

Innovation. Passion. Commitment.

SEC WLMFDH

FEATURES

- Microcontroller based
- Secure code hopping technology
- Uses nanowatt technology
- Detects vibration, breaking of glass, cutting of metal grills/aluminum frames
- Easy learning based configuration with control panel
- Transmit, Detection and Power LEDs
- Low battery alert to control panel
- Periodic health notification
- High-low sensitivity jumper
- Further sensitivity adjustment preset
- Aesthetic compact design for variable installation
- Long lasting lithium battery
- Sleek ABS Housing
